KIRKSVILLE, - - - MISSOURI.

FRIDAY MAY 3

GRAPHICS.

Mrs. Leech for Millinery.

Adair county will have a fine peach crop.

Eld. Errett went to Kahoka Thursday afternoon, and will return Saturday.

Corn planting is progressing rapidly, and farmers will nearly finish planting this week.

A little child of A. T. Morrow, seven miles east of Kirksville, is dangerously ill with pneumonia.

The splendid rain of Wednesday and Wednesday night brought joy to the hearts of the farmers.

V. Cookson will take charge of the Ivie Hotel next Tuesday, and a large patronage is already assured.

A fresh coat of paint and oil applied to the First International Bank building this week, adds very much to its appearance.

A. H. Burns, of Fairview, marketed two heifers Tuesday at 3 1/2 c per pound. Last year this time they would have brought him 2c per pound.

Old settlers say that forty years ago next Tuesday there was a frost that killed the wheat on the low lands, and all the corn that had come up.

C. A. Robinson & Co., have completed the addition to their store building, and they now have one of the best lighted clothing and carpet rooms in the city.

It is said by close observers that when the leaves of the forest trees put out quickly, a heavy corn crop is sure to follow. If this be true, Adair county will have the largest corn crop since 1879.

The annual meeting of the stock holders of the O. K. line was held in West Quincy Wednesday, and a board of directors elected. F. M. Harrington of this place was elected one of the Board.

The Wells-Fargo Express Company which has been doing business in Kirksville was superseded by the Adams Express Company May 1, and we now have another through express line to St. Louis.

Drs. Martin, Parrish, Burton and Nichols removed a large tumor, from the throat of the little five-months old son of Marcellus Bailey, Tuesday. The operation was a difficult one, but very successfully performed, and the little patient is doing well.

James Gross, a former respected citizen of this county, died at his home in Burlington, Kans., April 4th. He was born in Hocking county, Tenn., in 1824. He came to Kirksville in 1857, and moved to Kansas in 1878. His illness lasted 115 days. He leaves a large number of friends in Kirksville who will regret to learn of his death.

Chas. Milbank, the proprietor of the Kirksville Roller Mills, has sent \$20,000 out of the county for wheat during the past year. None of this money however has gone outside of the state. He has ground only Missouri wheat. With a little care and patience our farmers could raise enough wheat to supply the home demand, and by so doing keep a large amount of money in the country that now goes away.

The board of Education at its meeting Friday night of last week elected the following teachers for the coming school year: Superintendent, W. R. Holloway; W. R. Laughlin, A. P. We understand that the O. K. line is trying to arrange for a through car service from Kirksville to Chicago, St. Louis, Kansas City, and St. Jo. This will enable passengers to reach any one of these points from Kirksville without change of cars.

Judge Farrington is getting to be quite proficient in pronouncing the marriage ceremony. The dignity that surrounds the court on such occasions is calculated to inspire awe in the parties to the contract, and make them more obedient to the marriage vow.

The business men's jubilee given under the auspices of the ladies of the Endeavor Society of the Presbyterian church, at the Opera house Thursday and Friday nights of last week, was quite well attended, and the performance greatly enjoyed. Many of the costumes were exceedingly appropriate, and showed decided originality in design. The ladies netted about \$10 after all expenses were paid. The play is copyrighted by Mrs. Y. S. Patterson, of Kokomo, Ind.

Chinch bugs have made their appearance unusually early this year. Farmers from all over Missouri and adjoining states report much damage from this source to growing wheat. Dr. Paul Schweitzer, chemist at the experimental station, Columbia, Mo., is sending free to all who apply, packages of diseased bugs to be distributed through the wheat crops, for the purpose of exterminating the healthy bugs. The experiment has on previous occasions proved successful, and seems to be the only effectual means of relief.

W. M. Gottschalk, of Milan, was a guest at the Palace Hotel, in Macon, last Monday night.

When he retired instead of turning out the electric light he wrapped a towel round it. After a time the towel caught fire, and dropped to the floor setting the carpet on fire and filling the room with a dense smoke. The smoke found its way over the transom and down to the office, which caused the night clerk to investigate. He traced the smoke to Gottschalk's room. It was with great difficulty that he was aroused, as he was almost suffocated.
